How to Navigate and Customize Sirius XM Channels

Accessing and personalizing Sirius XM channels is designed to be user-friendly, whether through vehicle dashboards, mobile devices, or home systems. The Sirius XM app and interface provide tools for discovering, saving, and organizing favorite channels.

Using the Sirius XM App

The official app allows subscribers to browse channels by category, search for specific stations, and create custom presets. It also supports on-demand content and personalized recommendations based on listening habits.

Channel Presets and Favorites

Listeners can save preferred channels for quick access and organize them in a way that suits their preferences. This feature enhances the user experience by minimizing navigation time and promoting favorite content.

Additional Features

Sirius XM also provides options such as:

- Pause, rewind, and replay live radio
- Access to exclusive interviews and special events
- Curated playlists and themed channel blocks
