Common Verb Types and Their Conjugations

Understanding the types of verbs covered in spanish411 net verb conjugation worksheet answers is critical for effective study. Spanish verbs fall into several categories, each with unique conjugation patterns that students must master.

Regular Verbs

Regular verbs follow predictable conjugation patterns across different tenses. They are grouped into three categories based on their infinitive endings: -ar, -er, and -ir. For example, the verb *hablar* (to speak) is a regular -ar verb, and its conjugation in the present tense includes *hablo*, *hablas*, and *habla*.

Irregular Verbs

Irregular verbs do not adhere to standard conjugation rules and often change their stem or endings. Common irregular verbs such as *ser*, *ir*, and *tener* are frequently included in worksheets and their answer keys provide critical guidance for correct forms.

Stem-Changing Verbs

Stem-changing verbs undergo vowel changes in certain forms. For instance, the verb *dormir* changes from *o* to *ue* in the present tense for some conjugations. Spanish411 worksheets highlight these patterns, and the answers clarify proper usage.
