Understanding Subject and Object Pronouns

Subject and object pronouns serve distinct functions within English sentences. Subject pronouns act as the subject of a verb, performing the action, while object pronouns receive the action of the verb. Mastery of these pronouns is crucial for grammatical accuracy and clarity in communication. Subject pronouns include words like "I," "you," "he," "she," "it," "we," and "they." In contrast, object pronouns consist of "me," "you," "him," "her," "it," "us," and "them."

Defining Subject Pronouns

Subject pronouns replace the noun that performs the verb in a sentence. For example, in the sentence "She runs every morning," "she" is the subject pronoun replacing a proper noun or name. Understanding subject pronouns helps learners construct sentences that are grammatically coherent and stylistically correct.
