Cipher Puzzle Using Salem Codes

One of the initial challenges involves decoding a message written in a cipher inspired by colonial-era symbols. The solution requires players to identify a substitution pattern based on historical references found in the room's documents.

Lock Combination Based on Character Traits

Another critical puzzle is a lock that opens only when a numeric code corresponding to the traits of specific characters is entered. Players must analyze personality descriptions and assign numerical values to derive the correct sequence.

Symbol Matching and Sequence Alignment

Players encounter a series of symbols that must be matched and arranged in a particular order to unlock a compartment. The correct sequence is hinted at through the order of accusations made during the trials, necessitating knowledge of the play's timeline.
